## 1 Queues

Queue PS a Container datatype that stores @ 9 tems # Pn "First in first out" order (FIFO)

(quendition) Rear Pteme Frontitem ( as is)
(15 most recont has waited longer than others)
addition to queue that waited longer than others)
doil no is by queue of no equipment jac user of ld
is in it is a critical in the property of the p

\* Difference between quous & lists

- · queue is a restricted form of a lest
- · Additions to the queue must occur at the rear
- Deletions from the queues must occurs cathe

butter masses of commission butter of one of the open of the open

## Queueng theory

crois albu able how Is queued E to be haviourd my in رد على نزوج مد دو سالطلبة وفي البول في اللاء كان الاي مرب عرب الراهما و Panse المطلبة وفي البول في اللاء كان المرب الراهما الم Synchronizations by a sty queue all one no po as
